VISUALIZE YOUR TALENT

Applying the very best technology, the Bizwall delivers an excellent, seamless image with very high brightness. Calibration ensures uniformity in colours and brightness across the screen.

FUNCTIONALITY

With the Cyviz wall technology, you can add- and switch between any number of sources. You can also display several sources simultaneously in native resolution when taking advantage of Cyviz' groundbreaking Picture in Picture and source management technology.

FLEXIBILITY

This is a standardized product which is very easy to set up. Nevertheless, you can have any screen dimension and choose number of projectors in the system. It can also be enabled for stereo 3D.
