DAWSONS HOME CINEMA INSTALL KRAMER

DAWSONS HOME CINEMA HAVE INSTALLED A KRAMER VP-88 RGBHV MATRIX AND TWO KRAMER RGB DECODERS IN A HOME CINEMA INSTALLATION IN THE UK.

Dawsons Home Cinema have installed A Kramer VP-88 RGBHV matrix and two Kramer RGB decoders in a home cinema installation in the UK. Their client has an "Escient Fireball" music server, VCR, DVD player and 3 Sky boxes. The FC-19s are used to step up the outputs of the server and the VCR to RGBS. All signals are then routed as RGBS via the VP-88 RGBHV matrix to 3 TFT screens (bathroom, kitchen and bedroom) a plasma screen in the family room, and the projector in the main cinema.

Thanks to Dawsons for their kind permission to use their images
