

Vaddio Device Controller Tilt Wall Mount **SKU: 535-2100-300**

A tilt-adjustable wall mount for small displays, including the Vaddio Device Controller.

Key Features:

- Heavy-gauge powder-coated steel construction
 - Provides optimal viewing angles for users while maintaining a clean look
 - ADA-compliant design when used with the Vaddio Device Controller
 - Mounts to drywall or 2-gang electrical box
 - Opposed slotted mounting holes for easy leveling and cable routing hole for simple cable management
-

The Vaddio Device Controller Tilt Wall Mount is the perfect solution for clearing up valuable table space and keeping your control within easy reach. This mount is designed with heavy-gauge powder-coated steel and tension hinges allowing for $\pm 30^\circ$ of adjustment. The tension hinges make it easy enough to adjust the tilt angle on the fly while holding the surface stable enough for even the most heavy-handed touch screen users.

This mount is ADA-compliant when the Vaddio Device Controller is mounted and features a 75x75 and 100x100 VESA mounting pattern for optionally mounting other devices. The opposed slotted mounting holes allow for vertical and horizontal adjustments ensuring a secure and level mount to the wall. The cable routing hole makes cable management easy and keeps your installation clean and professional.

Maximize table space while keeping essential controls within easy reach. The tilting function of the mount provides optimal viewing angles for users, ensuring comfort and accuracy during use. The Vaddio Device Controller makes it easy to control cameras and other devices, and this wall mount puts those controls where you need them.
