

Mini Joystick & Vaddio Device Controller Table Stand **SKU: 535-5775-000**

Tabletop stand for PCC Mini or EasyIP PCC joysticks and the Vaddio Device Controller.

Key Features:

- Heavy-gauge powder-coated steel construction
- Screw holes for attaching the Vaddio Device Controller and slots for PCC Mini or EasyIP PCC to sit
- Low-profile design provides optimal viewing angle and space for cable routing

The Vaddio Mini Joystick & Device Controller Table Stand is a simple solution designed to streamline your control setup and minimize its desktop footprint. Effortlessly mount your Vaddio Device Controller touchscreen to the stand and add a PCC Mini or EasyIP PCC joystick for a complete and efficient AV control station.

The tabletop stand is designed with slots that allow the joystick controller's soft feet to contact the table surface, ensuring a stable grip and enabling single-hand operation without unwanted movement. The Vaddio Device Controller touchscreen mounts securely to the stand at the perfect height and angle behind the joystick controller, providing an optimal view and easy access to control features.

Whether you're a professional AV installer or an end user, the Vaddio Mini Joystick & Device Controller Table Stand elevates your control options, guaranteeing a clean and professional installation. No need for custom mounting solutions – our versatile and easy-to-install stand offers the perfect solution for adding simple control to your space.

This Package Includes:

- Table stand

- 4 qty M3-0.5 x 6 mm screws
