

## EasyIP 5 ePTZ Camera **SKU: 999-30150-000**

---

An HD ePTZ camera with IntelliFrame™ motion-based auto-framing that makes video conferencing and live streaming effortless.

### Key Features:

- 5x zoom with 100° horizontal field of view
- One EasyIP (PoE+) network video output, plug-and-play with EasyIP endpoints
- Customizable auto-framing for a variety of environments
- EasyIP Multicast enables video distribution to any number of EasyIP endpoints

---

The EasyIP 5 ePTZ camera has a wide 100° field of view, making it perfect for getting everyone in the frame in small collaboration rooms and huddle spaces. EasyIP 5 eliminates the need for costly USB extenders by sending 1080p resolution video feeds to EasyIP endpoints over category cables.

Use EasyIP 5 with endpoints like the EasyIP Decoder for a USB output that connects you with your favorite conferencing software like Microsoft Teams, Google Meet and Zoom. Integrate the EasyIP 5 with existing video and audio systems and gain useful features like picture-in-picture and graphic overlays using the EasyIP Mixer.

Offering superior flexibility for various environments, installers can select one of three primary settings for how sensitive you want the camera's auto-framing to be. Conservative Conference is designed for low-motion environments, Responsive Conference is the perfect option when you have teams that utilize the whole room, and Default Conference is the sweet spot where most teams are happy with the system performance.

An included Wall Mount Bracket allows the camera to tilt up and down to ensure proper framing of the conference table or room. Additional ceiling and on-display mounts are available separately.

### **Vaddio Deployment Tool**

Easily deploy and manage hundreds of Vaddio devices with the free desktop application. [Download Now](#)

---

### **This Package Includes:**

- EasyIP 5 ePTZ Camera
- Wall mount with tilting feature and mounting hardware
- Cable cover
- Vaddio IR Remote Master
- 3.3 ft (1 m) cat-5e snagless cable
- Quick-start card

### **Training**

Discover the power of EasyIP and revolutionize your AV setup. This course dives into the essentials of AV over IP, showcasing how EasyIP simplifies your installations and enhances your conferencing experiences. Enroll in this course in AV University
